

## **AIRPORT & DRIVING DIRECTIONS**

### **When you land at the airport...**

You will exit the plane and walk to the terminal where you will go through customs. Have your passport and immigration paperwork ready. Once through customs you will claim your baggage and then go through one more security check before leaving the terminal. As you exit you will encounter many salespeople offering to get you a taxi or shuttle or discounts on activities. Do not engage them in conversation...just keep heading for the exit. If you have a rental car reserved or arranged for a shuttle you will want to look for a representative of that company just outside the exit doors. They will typically have a sign with your name on it. Go straight to that person and identify yourself.

### **How to get from the airport to our Casa...**

**If taking a taxi**, just tell them you're staying at a private casa at "Las Misiones" which is a gated community on the hill up above Costco...show them the map. The community is called Las Misiones and our home is referred to as "Casa de Misiones".

**If you've rented a car**, you have two routes to choose from:

A.) **Via San Jose del Cabo** – You can drive through historic San Jose via Hwy 1. This is typically a slower route with many stoplights but will take you near shopping and close to historic downtown San Jose before reaching the coast.

B.) **Via Toll Road** – This is the preferred and quicker route. From the airport take a left and you will travel about 11 miles on a nice 2 lane highway through the desert before reaching the toll booth where you will need approx 27 pesos or approximately \$2.50 US. Just a short distance past the booth you will come to Hwy 1. Stay to the right, heading toward Cabo San Lucas.

Now you are heading west on Hwy 1 along the coast. You will go approximately 17 miles along scenic coastline. This section of Hwy 1 is referred to as "*The Transpeninsular*". At around KM marker 7 you will notice there is a frontage road on each side of the highway. You will want to move to the right, onto the frontage road, anytime you are planning to make a left or right turn off of the main Hwy. Not far past the **Home Depot** Store you will come to an intersection with a **Bridgestone** Tire shop on the right and a **Pemex** gas station on the left. You will turn right at that intersection and go up the hill about ¼ mile. **Las Misiones** will be on your left and you will enter via the security gate.

Tell the security guard your name and that you are staying at the Swanson's Casa #55 (cinco cinco). The guard should have a house key for you and can direct you to our home which is just inside the gate and to the left. If the guard does not have a key, the home should be open and a key inside.

If any questions arise, ask the guard to contact "**Nuri**". Nuri Montagut is the sales manager for the development company and she is familiar with our home. She speaks good English. Her office is in the Casa Club by the pool. Her contact information:

Cell phone: 52-624-114-7034

Email: [nmontagut@casasatlas.com](mailto:nmontagut@casasatlas.com)

**Our Property Manager is Jorge Caballero.** Jorge does not live on site, but is available.

Cell phone: 52-624-145-2248

Email: [marias2@prodigy.net.mx](mailto:marias2@prodigy.net.mx)

**Welcome to our casa! Have a fabulous stay!**
